

PLATE FOR THE CONSTRUCTION AND BRIDGE BUILDING MARKETS

A complete range of grades and plate lengths/widths now available from stock from the distributor with Nation-wide service and the widest range of plate in the U.K.

Typical plate girders awaiting erection for a steel framed building.

A complete hundred tonne bridge, profiled drilled and shot blasted and painted, supplied to an Irish client.

GRADES AND SIZES

BSEN10025 S275 JR/JO/J2G3
(Equivalent to BS4360 43B/C/D)
BSEN10025 S355 JR/JO/J2G3
(Equivalent to BS4360 50B/C/D)
BSEN10113 460M/NL

THICKNESSES: 6mm to 340mm

LENGTHS: UP TO 16M Ex Stock

WIDTHS: UP TO 4M Ex Stock

Delivered to J.I.T Schedules by our own fleet

THE BENEFITS

The enhanced range of grades and sizes provide the fabricator with the stock answer to "fast track" programmes, some of the benefits are listed below:

- 16m lengths available reducing welding costs
- Profiling to you exact sizes, reducing waste
- Complete shotblasting, painting and drilling service available
- Widths up to 4m allowing one piece bridge decks
- High yield S460 now incorporated in the latest design codes for Bridges and Buildings
- Stocks of 700 yield available to complete the range for high yield designs
- 9000 tonnes stocked in covered warehouses
- Full traceability to our ISO 9002 quality systems
- Weld Preparations to your requirements
- Kits of parts supplied from your assembly drawings, ready for fabrication
- Close liaison with British and European mills ensures rapid deliveries of non stock plate
