

PLATE PROCESSING SERVICES

A View of 2 of our oxy-propane profiling machines
Capacity: 500mm thick 20m long 6m wide plate weights up to 35 tonne

One of our oxy-plasma profiling machines.
Capacity: Thickness up to 25mm, width 3m length to 20m

We can also supply Laser cut profiles up to 25mm thick from a maximum plate size of 4m x 2m

A complete steel plate cutting and finishing service.

A fast efficient supply of profiles and finished parts on a single piece or batch production basis, from the simplest profile to complete fabrications.

CAPACITIES

- Plate lengths up to 20m
- Plate thickness up to 500mm
- Plate widths to 6m
- 24000 tonnes annual capacity

TESTING

- Ultrasonics to all specifications
- Impacts to your requirements
- Tensile Through Thickness
- H.I.C. to NACE

- CNC controlled profiling machines, Oxy propane, Plasma and Laser
- Weld Preparations shaped and straight
- Windows based CAD/CAM software with dedicated customer libraries for instant recall
- DXF file transfer facility
- Fully dressed and identified
- Complete kits of parts supplied
- From your assembly drawings - we break out all of the components
- Tight tolerances guaranteed
- Completely finished sub assemblies
- A full range of finishing services available (See Over)

PROFILE FINISHING SERVICES

With the ever growing need for finished parts rather than simple profiles we are delighted to offer a complete range of finishing services. Our list is not comprehensive and we would be delighted to quote you for any item from a small part to a complete bridge:

SHAPED Weld preparations both single and double in thickness to 110mm

Straight weld preparations from 6mm to 150mm, single or double

We are able to offer a complete grinding service, plate sizes up to 2m x 2m

Drilled or tapped holes in your profiled parts. We can drill parts up to 20m long

Pressed parts up to 12m

Utilising the very latest CNC machining centres, we can fully machine parts to 1 tonne

From small profiles to plates at 18m x 3m. We can offer a complete shotblast and paint service, all to your specifications

Complete rolled and welded shells to 4m wide. Hot rolling to 150mm
